Starla Litter Overview:

The Starla girls are an adorable pair with sweet, playful personalities. While they came in slightly shy, both quickly warmed up and displayed wonderful confidence. Red adjusted a bit faster than Pink and is the smaller of the two, with an extra compact and cute build. These puppies are engaging, outgoing, and a joy to be around. Initially cautious with new sounds, they adapted quickly and showed no lasting concerns. Both have mid to moderate energy levels, with Red leaning toward the lower end.

Health Notes:

- Red has an underbite and an umbilical hernia. These conditions are minor, will not cause discomfort or affect her daily life, and are easily managed.
 - Pink also has an umbilical hernia. This is mild and not will not affect her quality of life or routine.
-

Starla Pink

- **Energy Level:** Mid to moderate
- **Personality:** Pink is an incredibly gentle puppy who adores being held and handled. She is naturally respectful toward people, making her easy to interact with and care for. During play with her sister, Pink can sometimes be a bit rough but redirects easily with guidance. Her combination of sweetness, playfulness, and respectfulness makes her a delightful companion for any home environment. No red flags were noted.

Starla Red

- **POTENTIAL EMOTIONAL SUPPORT CANDIDATE**

- **Energy Level:** Mid (on the lower end)
- **Personality:** Red is a sweet, compact puppy who is gentle with handling but slightly more exploratory than her sister. She uses her mouth lightly to investigate, which is entirely normal for her age. Red loves to check in frequently for affection and reassurance, making her an excellent candidate for emotional support. Her calm, loving nature ensures she will bond deeply with her person or family. No red flags were noted.

Underbite:
