Armani Girls Temperament Overview:

The Armani litter overall is confident and self-assured, unless otherwise noted. A couple of the puppies do need a little time to adjust into new situations. These puppies react appropriately to new sights and sounds, including those that should be considered startling. These puppies have very good memory, focus, and problem-solving abilities above average for their age and stage of development. They also have excellent motivation for interaction food and toys.

These puppies are socially appropriate in their interactions with one another, with cats, and with other dogs. They are also socially appropriate in their interactions with people. These puppies are very gentle by nature and rarely use their mouth to initiate or engage in play, they have excellent bite inhibition if they do and are rarely vocal. They have no red flags and show no possessiveness. They are all comfortable and tolerant of handling and restraint.
