Hadley Boys Temperament Overview:

The Hadley litter overall is confident and self assured, although green needed time to adjust into new situations. They show little to no stress in new situations, around new people, or in circumstances typically considered stressful. These puppies react appropriately to new sights and sounds, being curious and investigative. These puppies have very good memory, focus, and problem-solving abilities above average for their age and stage of development. They have very good motivations for interaction and food and good motivation for toys.

These puppies are socially appropriate in their interactions with one another, with cats, and with other dogs. They are also socially appropriate in their interactions with people. They do use their mouth somewhat to initiate or engage in play but have excellent bite inhibition. These puppies are rarely vocal. They have no red flags and show no possessiveness. They are all comfortable and tolerant of handling and restraint.
