Lillian Girls Temperament Overview:

The Lillian litter overall is confident and self assured. They show no stress in new situations, around new people, or in circumstances typically considered stressful. Green does react to new sights and sounds but recovers on his own. These puppies are curious and investigative with new sights and sounds including those that should be considered startling.

These puppies have very good memory, focus, and problem-solving abilities average to their age and stage of development. They also have very good motivations for interaction food and toys. These puppies are socially appropriate in their interactions with one another, with cats, and with dogs. These puppies have no red flags and show no possessiveness. They are all comfortable and tolerant of handling and restraint, they are rarely vocal. These puppies are fairly consistent.
