Eira Litter Temperament Overview:

The Eira litter overall is confident and self-assured. After a little time to adjust into new situations, they show little to no stress in new situations, around new people, or in circumstances typically considered stressful. These puppies have good memory, focus, and problem-solving abilities, average to their age and stage of development. They have good motivation for interaction, food, and toys at fairly equal and balanced levels.

These puppies are pretty easy-going and seem to take much anything in stride. These puppies are socially appropriate in their interactions with one another, with cats, and with dogs. They are also socially appropriate in their interactions with people. They rarely use their mouth to initiate or engage in play and have excellent bite inhibition if they do. They are rarely vocal and have no red flags or show possessiveness.
