Faith Boys Temperament Overview:

The Faith litter overall is very confident. They show no stress in new situations, around new people, or in circumstances typically considered stressful. They react appropriately to new sights and sounds. They are curious and investigative. These puppies have very good memory, focus, and problem-solving abilities, above average for their age and stage of development. They have excellent motivation for interaction and food and good motivation for toys.

These puppies are socially appropriate in their interactions with one another, with cats, and with other dogs. They are also socially appropriate in their interactions with people. They do use their mouth to initiate and engage in play, but have excellent bite inhibition and are rarely vocal. These puppies have no red flags and show no possessiveness. They are all comfortable and tolerant of handling and restraint most of these puppies, actively seek out this type of interaction. These puppies are very consistent with very few differences between individuals.
