### Lydia Boys Temperament Overview:

The Lydia litter is confident and self-assured. After a short adjustment period, they show little to no stress in new situations, whether around unfamiliar people or in circumstances typically considered stressful. They react appropriately to new sights and sounds, including those that might be considered startling, and recover very quickly.

These puppies demonstrate age-appropriate memory, focus, and problem-solving abilities. They are equally and fairly motivated by interaction, food, and toys. Socially, they are appropriate in their interactions with one another, with cats, with other dogs, and with people. While they may use their mouths to initiate or engage in play, they have very good bite inhibition and are rarely vocal.

All puppies in this litter are comfortable with and tolerant of handling and restraint. They show no red flags and no signs of possessiveness. Overall, this litter gives the impression of being silly, playful, social, and happy.
