

# Meet the Parents

## Abby x Howie — Parent Overview

**Abby** is a sweet, affectionate, and delightfully goofy poodle. She can be a bit bashful and reserved at first, but not in a fearful way — she simply likes to take her time getting comfortable. Once she feels secure, her silly, charming personality comes out beautifully, making her a gentle and loving mother.

**Breed:** Standard Poodle

**Weight:** 44lbs

**Howie** is outgoing, sweet, and wonderfully charming. He enjoys being around people and is motivated by life itself — happy, social, and eager to engage. His confident, upbeat personality brings a lovely balance to Abby's softer, more reserved nature.

**Breed:** F2 Goldendoodle

**Weight:** 26lbs

**Together**, Abby and Howie are expected to produce puppies that embody the best qualities of both parents — gentle, respectful, affectionate, and very people-oriented. Their puppies will likely have mid-to-moderate energy levels, an excellent motivation for interaction, and sweet, loving temperaments. Some may be a little slow to warm up initially, but with space to adjust, they are expected to become deeply bonded, loyal companions.

Overall, this litter should be warm, gentle, and incredibly loving, making them a beautiful match for nearly any family who will give them the time and affection they need to flourish.
