

Meet The Parents

Posy x Benson — Parent Overview

Posy is a joyful, happy, and playful girl who brings sunshine into every environment. She loves hugs, adores interaction, and is always eager to please. With her lively energy and excitement for life, she is up for absolutely anything – as long as she gets to do it with her people.

Breed: F1B Goldendoodle

Weight: 28lbs

Benson provides a beautifully balanced complement to her enthusiasm. He is thoughtful and observant, taking in the world around him before jumping into new situations. Social and confident without being overbearing, he brings a calm, steady presence that pairs perfectly with Posy's bright spirit. Benson brings a bright, lively spark to this pairing. He is bubbly boisterous, and an absolute goofball, always ready to entertain and make people smile. With moderate energy and a strong desire to please, he lights up every room he enters.

Breed: Moyen Poodle

Weight: 21lbs

Together, Posy puppies have historically been social, bubbly, confident, playful, and eager to please, and we expect this litter to follow that same wonderful trend, with Benson adding a touch of thoughtful balance. Their puppies should have mid- to moderate energy levels and may be on the taller side for a small Goldendoodle, while still staying well within the expected weight range.

At just five weeks old, this litter is already maturing beautifully. They are meeting all milestones, showing strong observational skills, and quickly transitioning into playful, silly, and happy little personalities once settled. Even at this young age, they are proving to be cuddle, affectionate, and right on track in temperament, energy, and size – a wonderful reflection of both parents.
