“Grant” ~ Gretchen Blue Dot Temperament Overview:

Grant is a sweet, reserved boy who approaches new situations with caution but begins to warm up with gentle time and encouragement. He resembles Gretchen the most in temperament—soft, shy, patient, and incredibly tender-hearted.

He LOVES other dogs and would thrive in a home where another confident or alpha dog is present to help guide him. While he isn't naturally the most approachable at first, he is exceptionally tolerant and allows handling without hesitation. Even during grooming and mat removal, he remained calm and accepting, showing no inclination to protest—a testament to his gentle temperament.

Once he feels comfortable and understands that play is being initiated, Grant will engage, though he does so thoughtfully and at his own pace. His playfulness emerges in a soft, cautious way that reflects his sensitive nature.

Overall Impression

Grant is a gentle, reserved, and incredibly sweet puppy who blossoms with patience and reassurance. He would excel in a home with another steady dog and caregivers who appreciate a sensitive soul. With time and trust, he becomes affectionate, playful, and deeply loyal—a quietly loving companion with a heart of gold.
