Queenie x Houston — Parent Overview

Queenie is an absolute sweetheart. She is outgoing, charming, and overflowing with charisma. She has that special sparkle about her — the kind of dog who reaches out her paws as if she's trying to pet you back. Her gentle, affectionate nature makes her a joy to be around and truly a shining light wherever she goes.

Breed: Standard Poodle

Weight: 46lbs

Houston brings his own lovable flair to the pairing. He is fun, bubbly, and wonderfully goofy — everything you picture when you think of a happy-go-lucky male dog. He thrives on interaction, loves being around people, and carries an upbeat, contagious energy that makes him instantly endearing.

Breed: F1B Schnoodle

Weight: 67lbs

Together, these two should produce an exceptional litter. I anticipate puppies who are sweet, outgoing, and full of charm and personality. They should embody the perfect mix of playfulness and confidence, with energy levels falling comfortably in the mid to moderate range. Highly motivated by people and eager to connect, these babies are expected to be delightful companions who fit beautifully into most any home.
