

# Meet the Parents

## Tatum x Adler — Parent Overview

**Tatum** is truly a wonderful dog—sweet, affectionate, and overflowing with charisma. As a first-time mother, she has always longed for puppies of her own, even attempting to “borrow” babies from other mothers in the nursery before finally welcoming her own (our apologies to Marina). Her nurturing nature is undeniable, and it shines through in everything she does.

**Breed:** F1B Schnoodle

**Weight:** 55lbs

**Adler** is equally exceptional. He is outgoing, self-assured, and naturally bubbly, with a calmer disposition than many of our males while still carrying that classic, playful, dopey boyish charm. With both parents being so remarkable, this litter is set up for success in every way.

**Breed:** F1B Goldendoodle

**Weight:** 34lbs

**Together**, this pairing is expected to be confident, sweet, and irresistibly charming puppies with mid to moderate energy levels. They should be highly motivated to please, socially engaging, and an excellent fit for nearly any household.
