

Meet the Parents

Wynona x Brody — Parent Overview

Wynona is a very sweet and gentle girl with a soft, affectionate heart. She is playful, happy, and social, always excited for interaction and engagement. Her respectful, tender nature shines through in everything she does, and she absolutely loves cuddles, hugs, and being close to her people.

Breed: F1 Goldendoodle

Weight: 46lbs

Brody has a silly and joyful spirit. He is social, happy, and eager, with a fun-loving personality that makes him a favorite wherever he goes. He enjoys playtime just as much as he enjoys curling up in a lap afterward, bringing a perfect blend of energy and affection.

Breed: Moyen Poodle

Weight: 19lbs

Together, Wynona and Brody are expected to produce puppies who reflect the best of both parents — **sweet, social, engaging, and wonderfully affectionate**. Their puppies should have mid-to-moderate energy levels and a gentle, eager temperament that makes them naturally compliant and very motivated for training. Some may be slightly unsure in brand-new situations at first, but they are expected to adjust quickly and confidently on their own.

Overall, this litter should blend warmth, playfulness, and easygoing charm, making them a beautiful match for nearly any loving family environment.
