

Meet the Parents

Armani x Benson — Parent Overview

Armani is outgoing, confident, and sweet, and she is a perfect example of a Smeraglia Goldendoodle in both looks and personality. She is highly engaged, focused, and attentive, with a natural confidence and warmth that make her everything you could want in a dog and more.

Breed: F1 Goldendoodle

Weight: 62lbs

Benson is wonderfully balanced and thoughtful. He likes to observe and take everything in before jumping into new situations, showing himself to be a true “thinking” dog. He is social and confident without being overbearing, and his gentle, engaged demeanor makes him especially easy to live with.

Breed: Moyen Poodle

Weight: 21lbs

Together, Armani and Benson are expected to produce puppies that reflect the best of both parents—balanced, engaged, and sweet. We anticipate mid to moderate energy levels, well-rounded motivation for food, toys, and interaction, and temperaments that will allow these puppies to transition seamlessly into nearly any home environment.
