

Meet the Parents

Jubilee x Reuben — Parent Overview

Jubilee's name fits her perfectly — she is jubilant, bright, and full of joy. She is social, sweet, playful, and always excited for interaction. She loves to hang out, engage, and be part of whatever her people are doing. After a good burst of high-quality playtime, she's also happy to settle in as a cuddle bug and curl up in your lap. Jubilee has a sharp mind, loves to work and train, and may even be a little too smart for her own good.

Breed: F1B Schnoodle

Weight: 28lbs

Reuben, on the other hand, is a giant dog in a tiny package. No one has informed him that he's small, so he approaches every outing, adventure, and interaction with the confidence of a 120-pound mastiff. He is loving, affectionate, eager, and absolutely convinced that the world is here just for him. With his happy nature, athletic ability, and big personality, he quickly becomes the center of attention wherever he goes.

Breed: Mini Poodle

Weight: 16lbs

Together, they are expected to produce puppies who are highly trainable, people-oriented, enthusiastic, focused, and incredibly affectionate, with the potential to excel in companionship, therapy work, and family life alike. Jubilee has consistently produced puppies who go on to do remarkable things — wonderful companions, exceptional therapy dogs, and deeply bonded family pets. Her puppies are typically focused, very trainable, enthusiastic, and eager for engagement. With Reuben adding his gentle nature, balanced energy, and steady focus, this pairing should enhance those traits even more.
