

Meet The Parents

Laken x Benson — Parent Overview

Laken is a sweet, charming, and highly engaged girl with a beautifully balanced approach to the world. She is never too high and never too low, carrying herself with an even-keeled, steady demeanor. Laken is most motivated by people above all else and has a comfortable mid to moderate energy level, making her an easy and enjoyable companion.

Breed: F1 Goldendoodle

Weight: 63lbs

Benson complements her perfectly. He is a thoughtful, balanced dog who prefers to observe and take in his surroundings before jumping into new situations. He is social and confident without being overbearing, and his gentle, engaged nature makes him especially easy to live with and work alongside.

Breed: Moyen Poodle

Weight: 21lbs

Together, Laken and Benson are expected to produce puppies that reflect the best of both parents—balanced, engaged, people-oriented, sweet, and charismatic. We anticipate mid to moderate energy levels and a litter of people-first puppies that will transition seamlessly into most home environments.
