

Meet The Parents

Lydia x Brody — Parent Overview

Lydia is a sweet, reserved, and deeply cuddly girl with an exceptionally gentle nature. She is quiet, soft-mannered, and content to observe rather than demand attention—a true wallflower type. Lydia thrives in calm environments and offers a steady, comforting presence, making her especially endearing to those who appreciate a more subtle, affectionate companion.

Breed: F1 Goldendoodle

Weight: 28lbs

Brody brings a joyful contrast with his silly, happy spirit. He is social, eager, and people-focused, thoroughly enjoying playtime and engagement. Despite his playful side, Brody also loves nothing more than settling into your lap at the end of the day, making him a wonderful balance of fun and affection.

Breed: Moyen Poodle

Weight: 19lbs

Together, Lydia and Brody are expected to produce a litter of puppies that are sweet, gentle, and respectful in nature. These puppies should carry playful, fun demeanors wrapped in a very soft and affectionate package. We anticipate mid-level energy, strong people motivation, and temperaments that are especially well-suited for calm, more reserved households seeking loving, easy-going companions.
