

# Meet the Parents

## Romy x Fisher — Parent Overview

### **Romy:**

**Weight:** 40lbs

**Breed:** Standard Poodle

### **Fisher:**

**Weight:** 22lbs

**Breed:** F2 Goldendoodle

**Together,** Romy and Fisher consistently produce puppies with outstanding, well-rounded temperaments. Their puppies are confident and self-assured, showing little to no stress in new environments, around unfamiliar people, or in situations that might typically be considered challenging. They approach new sights and sounds with curiosity rather than hesitation, demonstrating strong problem-solving skills, focus, and memory for their age.

These puppies are highly motivated to engage with people, respond well to food rewards, and enjoy toy play. Socially, they interact appropriately with one another, with other dogs, cats, and with people. They are affectionate and playful, sometimes using their mouths to initiate interaction, while maintaining excellent bite inhibition.

They are comfortable with handling and gentle restraint, with many actively seeking out human touch and closeness. Vocalization is minimal and generally limited to moments when they are trying to communicate or gain attention, and it is easily redirected. There are no behavioral red flags or signs of possessiveness.

Overall, Romy and Fisher produce puppies that are confident, personable, and engaging—playful, silly, and full of joy, with temperaments that make them a pleasure to be around.
