

Meet The Parents

Ruth x Bruce — Parent Overview

Ruth is a confident, self-assured mother with a naturally steady and thoughtful demeanor. She approaches the world with curiosity and calm confidence, showing little to no stress in new environments, around unfamiliar people, or in situations that might typically feel challenging. Ruth is socially appropriate, gentle, and well-balanced, with excellent emotional stability and a sweet, easy-going nature that shines through in both daily life and motherhood.

Breed: Moyen Poodle

Weight: 26lbs

Bruce complements Ruth beautifully, contributing to the consistency and balance seen in their previous litter. Together, this pairing has already demonstrated the ability to produce puppies that are socially appropriate, emotionally sound, and developmentally strong. Their puppies have shown balanced motivation for people, food, and toys, along with good memory, focus, and problem-solving skills for their age.

Breed: F1B Goldendoodle

Weight: 26lbs

Together, Ruth and Bruce have already produced a litter that was notably confident, well-rounded, and sweet, making this repeat breeding especially reliable. Their previous puppies showed excellent bite inhibition, low vocal tendencies, and no possessive behaviors or behavioral red flags. They interacted appropriately with people, other dogs, cats, and littermates, and adapted easily to a variety of environments. We fully anticipate this litter to follow in those same footsteps—producing adaptable, emotionally stable puppies that transition seamlessly into most home environments.
