

Meet The Parents

Brooke x Diesel — Parent Overview

Brooke is a balanced, outgoing, and engaging girl and a wonderful example of the new generation of Smeraglia F1 Goldendoodles—both in look and in temperament. One of her standout traits is her natural ability to regulate her energy, seamlessly matching the person she's interacting with in a way that many dogs simply cannot. She is never too high or too low, making her an exceptionally adaptable and socially intuitive companion.

Breed: F1 Goldendoodle

Weight: 64lbs

Diesel is a Poodle who truly marches to the beat of his own drum. He is outgoing, confident, and highly energetic, with sharp intelligence and a strong drive to engage with the world around him. Diesel brings a Malinois-like intensity to his work ethic and curiosity—always ready for the next challenge, adventure, or activity.

Breed: Moyen Poodle

Weight: 45lbs

Together, Brooke and Diesel are expected to produce puppies that reflect the best of both parents. We anticipate confident, outgoing, and highly engaging puppies with mid to moderate energy levels and motivation across many areas—people, activity, play, and learning. This litter should thrive in livelier homes that want a puppy capable of keeping up with a busy day while remaining socially adaptable and well-rounded.
