

# Meet The Parents

## Faryn x Briggs — Parent Overview

**Faryn** has a very sweet disposition and a gentle, thoughtful nature. She can be a bit reserved at first, but once she's comfortable, her playful, affectionate, and eager-to-please personality really shines through. Faryn enjoys connection and engagement and brings a soft, cooperative temperament to this pairing.

**Breed:** F1B Goldendoodle

**Weight:** 15lbs

**Briggs** is a true thinking boy who loves to train and work. He is playful, eager, and highly motivated, with a strong desire to engage mentally and interact with his people. His enthusiasm for learning and balanced approach to play and work make him a wonderful counterpart to Faryn's gentle nature.

**Breed:** Moyen Poodle

**Weight:** 17lbs

**Together**, Faryn and Briggs are expected to produce puppies that enjoy training and are eager to engage and please. Puppies from this pairing may be a bit reserved initially, which often lends itself to gentle, respectful temperaments once settled. Size-wise, although Faryn is 15 lbs, her lineage includes a much larger dam, and we often see puppies from this pairing trend toward the larger end of small, with some remaining solidly in the extra small range. Monitoring individual growth trends within the litter is recommended, as puppies may vary depending on which side of the family they take after.
