

Meet The Parents

Julie x Benson — Parent Overview

Julie:

Weight: 63lbs

Breed: F1 Goldendoodle

Benson:

Weight: 21lbs

Breed: Moyen Poodle

This is a repeat breeding, allowing us to rely on established temperament data from the previous Julie litter. That litter was overall confident and self-assured, showing no signs of stress in new situations, around unfamiliar people, or in environments typically considered challenging. They responded appropriately to new sights and sounds—including those that might be startling—and approached the world with curiosity and eagerness to explore.

The puppies demonstrated very good memory, focus, and age-appropriate problem-solving skills. Motivation for interaction, food, and toys was strong and well-balanced across the group. Socially, they were well-mannered with one another, with cats and other dogs, and with people. Mouthiness and vocalization were rare, bite inhibition was appropriate, and no possessive behaviors or red flags were observed. They were comfortable and tolerant with handling and restraint.

Together, this pairing has already proven to consistently produce a very well-balanced and reliable litter. With only subtle differences between individuals, these puppies are expected to adapt smoothly into nearly any home environment, offering confidence, steadiness, and social appropriateness across the board.
