

Meet The Parents

Lenora x Dempsey — Parent Overview

Lenora is an affectionate, outgoing, and highly engaging girl whose world revolves around attention, hugs, and cuddles. She carries a mid to moderate energy level and is happily playful when she's not trying to convince you to let her climb into your lap. Lenora brings warmth, personality, and a deep love of connection to this pairing.

Breed: F1B Goldendoodle

Weight: 50lbs

Dempsey offers a beautifully balanced counterpart. He is outgoing and sweet, but in a steadier, more composed way. Playful without being obnoxious, affectionate without being over-the-top, and engaged without being codependent, Dempsey carries himself with impressive control and emotional balance. His mid to moderate energy level allows him to adapt easily to the moment.

Breed: F1 Schnoodle

Weight: 42lbs

Together, Lenora and Dempsey are expected to blend beautifully, producing sweet, engaging, and affectionate puppies with strong motivation for interaction. While highly people-oriented, these puppies should also be capable of entertaining themselves when needed. With mid to moderate energy levels and balanced temperaments, this litter is anticipated to be a wonderful fit for nearly any home environment.
