

Meet The Parents

Peach x Reuben — Parent Overview

Peach:
Weight: 15lbs
Breed: F2B Goldendoodle

Reuben:
Weight: 16lbs
Breed: Mini Poodle

This is a repeat breeding, giving us the benefit of real, established temperament data from the previous Peach litter. That litter showed confident, self-assured temperaments after a brief adjustment period in new environments or around unfamiliar people. While they may initially show mild stress in situations typically considered challenging, they adjusted well on their own when given space and time to process.

The puppies were curious and investigative with new sights and sounds, including those that could be considered startling. They demonstrated very good memory, focus, and age-appropriate problem-solving skills, along with excellent motivation for interaction and food, and a healthy interest in toys. Social interactions were consistently appropriate with littermates, cats, other dogs, and people. Mouthiness was rare, bite inhibition was excellent, vocalization was minimal, and no possessive behaviors or behavioral red flags were observed. Puppies were comfortable with handling and restraint, often actively seeking it out, and were noted to be especially gentle and cuddly.

Together, this pairing has already proven to produce puppies that are well-balanced, affectionate, socially appropriate, and adaptable once settled. Their gentle, people-oriented nature and emotional steadiness give them strong potential for therapy-style work and make them a wonderful fit for a wide variety of home environments.
