

Meet The Parents

Kassandra x Archie — Parent Overview

Kassandra is the definition of a gentle giant. She is sweet, gentle, and wonderfully outgoing, carrying a calm and affectionate presence. While she will happily romp and play if invited, Kassandra would almost always prefer to cuddle and is happiest when she's doing exactly that. Her thunderous tail wags against the nursery floor are a familiar and joyful welcome to anyone who steps into her room.

Breed: F1B Goldendoodle

Weight: 65lbs

Archie is a chill, affectionate, and engaging boy who shares that same loving disposition. He enjoys playtime like any dog, but he leans much more toward hugs and quiet connection than running laps. Archie is simply an all-around sweet guy with an easygoing, people-oriented nature.

Breed: F1B Schnoodle

Weight: 58lbs

Together, Kassandra and Archie are expected to produce puppies that follow beautifully in their parents' footsteps—loving, affectionate, and highly motivated by interaction. We anticipate mid-level energy puppies who prefer connection over chaos and who will transition easily into a wide variety of home environments, bringing warmth and companionship wherever they go.
