

Meet The Parents

Sutton x Ian — Parent Overview

Sutton is an outgoing, bubbly, and highly engaged girl with a wonderfully fun and playful disposition. She enjoys being active and interactive, yet she settles beautifully and genuinely prefers handling and cuddle time when given the opportunity. Sutton carries a true “jack-of-all-trades” personality—equally comfortable romping or relaxing.

Breed: F1B Goldendoodle

Weight: 55lbs

Ian shares much of that same versatility, just with broader edges. He is sweet, outgoing, engaging, and full of fun. Playful and bubbly when the moment calls for it, Ian is equally quick to roll over for belly rubs or curl up in your lap if invited. He embodies that same jack-of-all-trades demeanor, just without any hesitation about embracing either end of the spectrum.

Breed: F1B Schnoodle

Weight: 23lbs

Together, Sutton and Ian are expected to produce puppies that fall beautifully into that same category—sweet, engaged, a little goofy, and happy to be along for whatever ride their family chooses. We anticipate mid to moderate energy levels, adaptable temperaments, and puppies that will be a wonderful fit for most home environments.
