

# Meet The Parents

## Juneau x Diesel — Parent Overview

**Juneau** is an affectionate, engaged, and beautifully even-keeled momma. She is happy doing just about anything so long as she's doing it with her person. Juneau carries an ideal energy level that allows her to seamlessly shift between play, running, napping, cuddling, and gentle interaction—all within the same balanced temperament.

**Breed:** F1 Goldendoodle

**Weight:** 36lbs

**Diesel** is a Poodle who truly marches to the beat of his own drum. He is outgoing, confident, and highly energetic, bringing both intensity and intelligence to everything he does. Often compared to a Malinois in both drive and sharpness, Diesel is always ready to take on a new adventure and thrives on engagement and activity.

**Breed:** Moyen Poodle

**Weight:** 45lbs

**Together,** Juneau and Diesel are expected to produce puppies that are engaged, outgoing, affectionate, and full of life. We anticipate mid to moderate energy levels, strong motivation for interaction, and fun-loving personalities that embrace whatever the day brings. This litter should be a great fit for a wide variety of home environments.
