He is highly motivated by people and consistently chooses them over toys, though he does enjoy playing and engaging with his littermates. Orange Dot

- **Energy Level:** Mid to Moderate
- **Personality:** Orange Dot is a very balanced boy with a naturally easygoing personality. He warms up quickly and becomes incredibly affectionate, turning into “butter” when held. He shows great independence while still being social and engaging, and has a fun, silly side that really shines. Overall, he is a well-rounded puppy who will transition easily into many different home environments.
- **Health Notes:**
 - Puppy has a mild underbite, which is very minor and will likely correct as he continues to grow. It will not affect daily life or cause any discomfort and is purely cosmetic. He also currently has an undescended testicle, which is very common at this age and expected to descend as he matures. Neither will cause pain or affect daily life. Both have been cleared by our vet.

When she's happy to see you, she proudly carries around toys—or the nearest blanket, towel, or anything she can find—as if bringing a gift. She is a wonderfully balanced and engaging dog who is always ready and willing to accompany her people on whatever adventure the day holds.

Prince Fletcher is balanced, outgoing, and affectionate, with a natural charm that makes him hard not to love.
