

Meet The Parents

Myra x Maxwell — Parent Overview

Myra is an outgoing, engaging, playful, and affectionate girl who does just about everything at full throttle. Whether she's playing, running, seeking attention, or cuddling with all 13 pounds of herself, Myra puts her whole heart into it. Her enthusiasm for life and deep love for people make her an incredibly fun and interactive companion.

Breed: F1 Schnoodle

Weight: 13lbs

Maxwell shares much of that same spirit. He is affectionate, energetic, and very outgoing, with a singular focus in life: interaction. Maxwell doesn't particularly care what activity is taking place as long as a person is involved. He will happily do whatever it takes to gain and maintain your attention, bringing enthusiasm and connection to every interaction.

Breed: Poodle

Weight: 12lbs

Together, Myra and Maxwell are expected to produce puppies that closely mirror their parents—outgoing, affectionate, playful, and highly engaging. Above all else, we anticipate puppies that are completely enamored with their people and thrive on connection. Energy levels will likely fall in the mid to moderate range, occasionally pushing toward moderate when excitement is high. This litter should be an excellent fit for homes that enjoy a very interactive and involved relationship with their dog.
