

# Meet The Parents

## Prada x Mordecai — Parent Overview

**Prada** is one of the more unique personalities in our program. If you make it onto her nice list, she is sweet, goofy, playful, engaging, and incredibly affectionate—a dog that quickly becomes one of your favorites. If you land on her naughty list, however, Prada is not shy about letting you know. Fortunately, she is highly food motivated and responds beautifully to respectful interactions, meeting kindness and fairness with the same in return. Prada is a girl with strong boundaries, confidence, and a big personality to match.

**Breed:** Standard Poodle

**Weight:** 61lbs

**Mordecai** is playful, outgoing, energetic, and endlessly bubbly. He is the definition of happy-go-lucky, approaching every day with an infectious enthusiasm for life. Despite being the largest dog in the program by a considerable margin, Mordecai seems completely unaware of his size and behaves as though he is a 20-pound dog trapped in a nearly 100-pound body. His joyful, carefree nature makes him impossible not to love.

**Breed:** Schnauzer

**Weight:** 86lbs

**Together**, Prada and Mordecai are expected to produce puppies with the same larger-than-life personalities as their parents. We anticipate outgoing, playful, energetic, bubbly, and affectionate puppies that are fully invested in whatever moment they are experiencing. With broad motivation across people, food, play, and exploration, these puppies should have mid to moderate energy levels and thrive in active, engaging homes that enjoy an interactive and involved companion.
