

# Analise Girls Temperament Assessment

## [Analise Girls Play Video](#)

Date of Birth: 5/16/2026

### Analise Litter Temperament Overview:

This litter is **very well-balanced, respectful, and naturally engaging**, with a strong emphasis on **connection, playfulness, and emotional awareness**. They present as **sweet, affectionate, and personable puppies** who are very in tune with their people while still maintaining a healthy level of independence.

Across the board, they are **confident but not overwhelming**, adjusting well to new environments with just a brief moment when needed. They are **gentle and tolerant with handling**, and show a natural ability to settle, creating a very **easy, adaptable temperament** overall.

Energy levels sit at a consistent **mid to mid-moderate range**, with excitement rising during interaction and play, then settling quickly back into a balanced state. These puppies are **highly motivated by connection and engagement**, and thrive when included and interacted with regularly.

Several puppies in this litter show **excellent early potential for service, therapy, and ESA work**, as they are **incredibly people-oriented, intuitive, and naturally driven to form strong, meaningful bonds** with their families.

Overall, this is a **very versatile, family-friendly litter** that will do beautifully in homes that are **interactive, engaging, and looking for a true companion**.

### Analise Red

★ Prep Student: **8-Week S.T.A.R. Puppy Program**

**POTENTIAL SERVICE + THERAPY CANDIDATE**

- **Energy Level:** Mid Level

- **Personality:**

Analise Pink Dot is a **happy, confident, and playful girl** with a fun, slightly **silly and engaging personality**, paired with a very **nice balance between independence and connection**. She may take a brief moment to settle in new environments, but adjusts well and quickly shows her **affectionate and interactive nature**.

She is **very people-oriented, intuitive, and naturally in tune with those around her**, showing a strong desire to connect and **form lasting, meaningful bonds**. While she leans slightly more independent than some of her littermates, she still **values closeness and interaction**, creating a very **easygoing and adaptable dynamic** in the home.

She is **very tolerant with handling**, though can be a bit wiggly with excitement, reflecting her upbeat and playful demeanor. Her energy is a steady **mid level**, rising slightly with interaction but settling quickly, making her a very manageable and well-balanced puppy.

Overall, she is a **well-balanced, affectionate, and engaging companion** with a great mix of **playfulness, independence, and emotional connection**, along with excellent early working potential.

- **Physical Evaluation:**

No health concerns noted.

## Analise x Dempsey — Parent Overview

**Analise** is a respectful, playful, and happy poodle with a wonderfully engaging personality. She is highly present in her interactions, expressive in her communication, and carries strong motivation for engagement with the people around her. Analise approaches life with enthusiasm and curiosity while maintaining a balanced and thoughtful demeanor.

**Breed:** Standard Poodle

**Weight:** 42lbs

**Dempsey** shares many of those same qualities. He is outgoing, sweet, and exceptionally balanced. Playful without being overwhelming, affectionate without being needy, and engaged without being dependent, Dempsey brings a remarkable level of control and emotional steadiness to everything he does. His ability to balance all aspects of his temperament is one of his greatest strengths.

**Breed:** F1 Schnoodle

**Weight:** 35lbs

**Together**, Analise and Dempsey are expected to produce puppies that closely reflect their parents—balanced, respectful, engaging, and playful. We anticipate mid to moderate energy levels, perhaps leaning slightly toward mid-level, along with adaptable temperaments that are easy to live with. This litter should be a wonderful fit for a wide variety of home environments, offering a healthy blend of engagement, affection, and stability.
