Finley Litter Temperament Overview:

This litter is a beautiful combination of Finley's outgoing, affectionate, and deeply people-driven personality with Stark's balanced, confident, and easygoing nature. The result is a group of puppies that are sweet, engaging, personable, and highly motivated by human interaction.

Overall, this litter is very confident, gentle, and naturally people-oriented, with many showing strong early indicators for therapy, emotional support, and service-oriented roles. These puppies are intuitive, attentive, and thrive on connection, often working to build and maintain strong bonds with their people.

Energy levels range from mid to mid-moderate, with some puppies becoming more animated during interaction but settling well when handled. These puppies are best suited for homes looking for a true companion-type dog—one that wants to be involved, connected, and engaged in daily life rather than independent.
