

Cheyenne Boys Temperament Assessment

Cheyenne Boys Play Video

Date of Birth: 8/9/2026

Cheyenne Litter Temperament Overview:

Cheyenne and Captain have produced a **sweet, affectionate, personable, and beautifully people-oriented litter**. These puppies reflect many of the qualities seen in both parents: confidence without unnecessary pushiness, an enjoyment of human interaction, and the ability to participate happily in everyday life.

One of the strongest themes throughout this litter is their **focus and problem-solving ability for their age**. Several puppies also show a particularly strong preference for people, excellent engagement, and very good handling tolerance, creating some exciting early foundations for service and therapy development.

Energy varies somewhat between individuals, but the litter generally falls between **mid and mid-to-moderate**, with some puppies becoming more animated through play and interaction. Their individual evaluations are important for matching, as some are especially adaptable while others will be happiest with families who want a more interactive, engaging relationship.

Overall, this is a **lovely companion-focused litter**, particularly for families drawn to therapy-style qualities such as affection, connection, gentleness, tolerance, engagement, and a strong relationship with their people.

Cheyenne Blue

POTENTIAL THERAPY / ESA CANDIDATE

- **Energy Level:** Mid — Consistent & Balanced

- **Personality:**

Cheyenne Blue is a **very well-balanced, gentle, respectful, personable, and engaging boy** with wonderful confidence for his age. He is self-assured without being pushy and has a naturally adaptable temperament, giving him a lovely combination of confidence, sweetness, and composure.

He is **very tolerant with handling and shows very good human engagement**. He enjoys connecting with people while still maintaining a healthy degree of independence, allowing him to form meaningful relationships without needing constant attention. His gentle disposition, tolerance, focus, and natural engagement are especially lovely qualities for a companion.

His energy is a **textbook mid level**, giving him enough playfulness and social interest to participate in everyday family life while maintaining a nicely manageable overall presentation. He should adapt beautifully to **a wide variety of homes and lifestyles**.

Blue shows **good early therapy and emotional-support potential**. His gentleness, excellent handling tolerance, human engagement, balanced nature, and confidence provide a promising foundation for continued development.

He is also **trending toward the smaller side of the litter**.

- **Physical Evaluation:**

Blue is showing some normal physical immaturity for his age, including delayed tooth development, and both testicles are currently present but undescended. Undescended testicles are very common at this age, and we expect them to descend as he continues to mature. This will not cause him pain or affect his daily life. This has been cleared by our vet.

Cheyenne Green

POTENTIAL SERVICE + THERAPY CANDIDATE

- **Energy Level:** Mid — Consistent & Balanced

- **Personality:**

Cheyenne Green is an exceptionally **well-balanced, gentle, respectful, personable, and highly engaging boy** with great confidence and focus. He is self-assured without being pushy and has a strong natural preference for his people, making connection and interaction an important part of his temperament.

He is **very tolerant with handling and demonstrates great human engagement**. Although he carried some initial tension during handling, he remained highly tolerant throughout. His strong people orientation, engagement, focus, and willingness to connect give him a particularly relationship-driven temperament.

His energy is a **textbook mid level**, giving him a wonderful balance between participating in life and remaining manageable. He will be best appreciated by an **engaging home** that enjoys interacting, training, playing, and building a close relationship with their dog.

Green shows **great early potential for both service and therapy work**. His strong human focus, excellent engagement, confidence, focus, handling tolerance, and balanced energy create a particularly promising foundation for continued working development.

- **Physical Evaluation:**

No health concerns noted.

Cheyenne Orange

POTENTIAL SERVICE + THERAPY CANDIDATE

- **Energy Level:** Mid — Playful & Engaging

- **Personality:**

Cheyenne Orange is a **very well-balanced, gentle, respectful, playful, focused, and highly engaging boy** with great confidence. He was relaxed during his initial handling evaluation and approaches his environment with comfortable self-assurance without being pushy.

Orange has a **strong natural preference for his people**, paired with great human engagement. He is very tolerant with handling and genuinely enjoys connection and interaction, creating a wonderful combination of people focus, responsiveness, and composure.

His individual energy evaluation was a **textbook mid level**, while his broader presentation showed a playful, engaged personality that can become more animated through activity and interaction. He will be happiest in an **engaging home** that enjoys including him in everyday life and giving his focus and social nature positive outlets.

Orange shows **great early potential for both service and therapy work**. His confidence, focus, strong people orientation, excellent engagement, handling tolerance, and balanced energy give him a very promising foundation for continued working development.

- **Physical Evaluation:**

No health concerns noted.

Cheyenne Blue Dot

POTENTIAL SERVICE + THERAPY CANDIDATE

★ Prep Student: 4-Week Starter Puppy Program

- **Energy Level:** Mid — Excites with Interaction

- **Personality:**

Cheyenne Blue Dot is an **exceptionally affectionate, personable, engaging, and people-oriented boy** with great focus and confidence. He is self-assured without being pushy and naturally places a high value on human connection, giving him an especially warm, relationship-driven temperament. He was also relaxed during his initial handling evaluation.

He is **very tolerant with handling and demonstrates great human engagement**. His strong preference for people, affectionate nature, focus, and responsiveness create a lovely combination for a puppy who genuinely enjoys connecting and participating with his person.

His baseline energy tested at a **textbook mid level**, with interaction capable of bringing him toward a more moderate level of excitement. He will be best suited to an **engaging home** that enjoys his affectionate, interactive personality and gives him plenty of opportunities for connection, play, and learning.

Blue Dot shows **great early potential for both service and therapy work**. His people orientation, excellent engagement, affection, focus, confidence, handling tolerance, and balanced baseline energy create a particularly promising foundation for continued working development.

- **Physical Evaluation:**

No health concerns noted

 **Meet The Proud Parents!**

Meet The Parents

Cheyenne x Captain — Parent Overview

Cheyenne is a sweet, outgoing, and beautifully well-balanced girl. She is happy to romp and play when that is what the moment calls for, but she is equally content crawling into your lap and settling in for cuddle time. Cheyenne has a wonderfully adaptable nature that allows her to enjoy both activity and affection while remaining deeply connected to her people.

Breed: F1 Goldendoodle

Weight: 37lbs

Captian is affectionate, self-assured, and outgoing, with an exceptionally balanced approach to life. He is open to just about anything and carries a strong motivation for interaction, making him an engaging and adaptable companion. His confidence and easygoing nature allow him to comfortably embrace whatever his people have planned.

Breed: Moyon Poodle

Weight: 32lbs

Together, Cheyenne and Captain are expected to produce puppies that closely reflect their parents—sweet, outgoing, self-assured, and wonderfully well-balanced. We anticipate puppies that naturally prefer being with their people while still remaining content and adaptable in a variety of situations. Energy levels should range from mid to mid-moderate, making this litter a wonderful fit for a wide variety of home environments.
