

Edith Blue Dot's Temperament Assessment

Purebred English Retriever

Date of Birth: June 6th, 2026

Litter Temperament Overview:

This litter is an incredibly **confident, social, curious, happy, and playful group** with plenty of personality. These puppies genuinely enjoy people and are not shy about seeking attention—they can be vocal and tactile when asking for interaction, then become wonderfully affectionate once they have it.

Overall, they are **personable, engaging, sweet, and expressive puppies** with a fun enthusiasm for life. Their temperaments combine confidence and curiosity with a strong social nature, making them puppies who are eager to interact, explore, play, and be involved with their people.

The litter presented with **primarily mid-level energy**, with individual puppies naturally varying in their activity and presentation. Several show promising qualities for **service and/or therapy development**, particularly through their social confidence, affection, engagement, and tolerance for interaction.

Overall, this is a **happy, people-oriented, personality-filled litter** that should thrive with families looking for an affectionate, interactive companion who wants to be part of everyday life.

"Saké" Edith Blue Dot

★ Prep Student: **16-Week S.U.P.E.R. Puppy Program**

Prep School Dates: 8/27/26 – 12/17/26

POTENTIAL SERVICE + THERAPY CANDIDATE

- **Energy Level:** Low to Mid

- **Personality:**

Saké is an **exceptionally sweet, affectionate, gentle, and personable puppy** with a wonderfully easygoing disposition. She is confident without being pushy and has a natural desire to connect with people, showing very good engagement while still maintaining a balanced sense of independence.

One of Saké's strongest qualities is her **exceptional tolerance and enjoyment of handling**. She scored a 9/10 in this area and genuinely loved being handled during her evaluation. She is tactile, affectionate, and comfortable with close physical interaction, giving her a particularly lovely foundation for a family wanting a puppy who enjoys that hands-on connection.

Saké is also **social, happy, engaging, and very sweet**. She has a slight preference toward her people and seeks interaction readily without presenting as overly dependent. Her confidence, strong human engagement, affection, and exceptional handling tolerance all contributed to her **great early potential for both service and therapy work**.

While this litter generally presented with mid-level energy, Saké herself was notably more laid-back during her individual evaluation. Her energy tested **low to mid**, making her one of the slower, more relaxed personalities within the group. She should be a wonderful fit for a home looking for an affectionate and connected companion without an especially high-energy presentation.

Her **16-Week S.U.P.E.R. Puppy Program** will give her an extended opportunity to build on this already strong foundation through continued training, socialization, confidence development, and real-world exposure.

- **Physical Evaluation:**

No health concerns noted.
