

Rory Girls Temperament Assessment

Rory Litter Play Video

Date of Birth: 7/14/2026

Rory Litter Temperament Overview:

The Rory litter is a **sweet, personable, playful, curious, and well-balanced group** with plenty of personality. These puppies are social and endearing, with individual differences in how quickly they settle into new situations, how strongly they seek human interaction, and how independently they move through their environment.

Across the litter, energy is primarily **mid level**, making them enjoyable, playful companions without being excessively high-energy. Some puppies may take a little time to become fully comfortable in a brand-new environment, but their personalities open up beautifully once they have had an opportunity to settle in.

There is a nice range of companion styles within this litter—from puppies who enjoy a little more independence to those who become more interactive and engaging once comfortable. Because of those differences, **individual temperament matching will be especially helpful when choosing the right Rory puppy for each family.**

One important physical note for the litter: **all of these puppies are expected to outgrow the Medium size category.**

Rory Pink

- **Energy Level:** Mid — Balanced & Manageable

- **Personality:**

Rory Pink is a **sweet, goofy, gentle, playful, and naturally independent puppy** with a personality that is a little different from the more people-dependent puppies we often produce.

She may need a moment to **take in a new environment and become comfortable**, but once she has adjusted, her playful and silly personality comes through. She enjoys people, but she is also genuinely comfortable entertaining herself and does not feel the need to be the center of human attention at all times.

That independence can be a wonderful quality for the right family. Rory Pink is the type of puppy who can **be part of the family without needing to be attached at the hip**, making her particularly appealing for someone wanting a companion with a little more natural self-sufficiency.

She was somewhat more reserved with handling during her evaluation and can become a little tense when physically restrained, so she will benefit from continued positive handling experiences as she matures.

Her energy is a true **mid level through and through**. She remained consistent during her evaluation, giving her a manageable overall energy profile.

Rory Pink will be especially well suited to a family looking for a **fun, sweet companion with a more independent disposition**—one who can enjoy affection and family interaction while also being perfectly content having a little space of her own.

- **Physical Evaluation:**

No health concerns noted.

Rory Red

★ **Prep Student: 8-Week S.T.A.R. Puppy Program**

Prep School will begin once adopted.

- **Energy Level:** Mid — Playful & Consistent

- **Personality:**

Rory Red is a **happy, social, playful, engaging, and sweet puppy** with an incredibly endearing disposition.

She can take **a little time to become fully comfortable in a brand-new situation**, but once she settles in, her social and playful personality really begins to show. She enjoys engaging with people while maintaining a nicely balanced level of independence, meaning she can appreciate interaction without needing constant attention.

She is **quite tolerant with handling** and becomes increasingly engaging as she gets comfortable. Her combination of social interest, playfulness, and balanced independence gives her the foundation to be a very enjoyable everyday companion.

Her energy is a true **mid level**, remaining consistent throughout her evaluation. She has plenty of personality and playfulness without presenting as excessively energetic or difficult to settle.

Rory Red will benefit from continued **confidence-building and positive exposure**, and her 8-Week S.T.A.R. Puppy Program will provide additional time for structured learning, socialization, and development as she matures.

She should be a wonderful match for a family wanting a **happy, playful, affectionate companion** who will be actively included in family life while still having a balanced overall temperament.

- **Physical Evaluation:**

No health concerns noted. She is **trending large and is expected to outgrow the Medium size category**.

Meet The Parents

Rory x Bruce — Parent Overview

Rory is a fun, sweet, and outgoing girl with a personality that's every bit as big as she is. She approaches life with a goofy charm in everything she does and somehow manages to have more personality than her giant body can contain. Above all else, Rory adores people and would happily spend her days believing she's a lap dog if you let her. Her affectionate, engaging nature makes her impossible not to love.

Breed: F1B Schnoodle

Weight: 65lbs

Bruce is very much on the same wavelength. He is sweet, gentle, and playful, with a kind and thoughtful demeanor. While he can be a bit timid when meeting new people, especially at first, his wonderful personality quickly shines through once he has a chance to settle in. Bruce forms strong bonds with his people and has a naturally affectionate, easygoing nature.

Breed: F1B Goldendoodle

Weight: 26lbs

Together, Rory and Bruce are expected to produce puppies that closely resemble their incredible parents. Historically, Rory has a remarkable tendency to "3D print" herself in both appearance and personality, and with Bruce sharing so many complementary traits, we expect that tradition to continue. This litter should produce big puppies with even bigger personalities—sweet, playful, engaging, and incredibly endearing. We anticipate mid to moderate energy levels, excellent potential for service work, and puppies that will thrive in interactive homes looking for a devoted companion with plenty of personality.
