

Armani Boys Temperament Assessment

[Armani Boys Play Video](#)

Date of Birth: 8/2/2026

Armani Litter Temperament Overview:

The Armani litter is an incredibly **affectionate, gentle, personable, and people-focused group** with the beautiful companion qualities we expected from Armani and Cosmo. These puppies genuinely value human connection and consistently work to **gain and maintain interaction with their people**, creating a litter that is naturally engaging, relationship-driven, and eager to be involved. Across the individual evaluations, strong human engagement and handling tolerance were especially consistent qualities.

As a litter, they may benefit from **a brief opportunity to take in something unfamiliar before fully settling in**, with that adjustment presenting a little differently from puppy to puppy. Some move through that initial moment very quickly, while others benefit from a little more patience and continued confidence-building. Once comfortable, we consistently see **gentle, affectionate, respectful, personable, and engaging puppies** who strongly enjoy connection with their people.

Energy is remarkably consistent at a **true mid level throughout the litter**, giving these puppies a wonderful balance of interaction, companionship, and everyday manageability. Some naturally show more ability to calm through interaction, while others maintain that steady mid-level presentation. Individual matching will be important, but overall these puppies are best suited to families who want a dog that will be **engaged, involved, and closely connected to their everyday life**.

There is also **wonderful service and therapy potential throughout this litter**. Their evaluations consistently show many of the foundational qualities we look for in continued working development, including **strong people orientation, human engagement, affection, handling tolerance, and a desire for connection**. Individual confidence, energy, and regulation will continue to help determine which working direction is most appropriate for each puppy as they mature, making thoughtful individual matching especially important.

Overall, this is a **sweet, affectionate, gentle, highly people-centered, and versatile litter** that beautifully reflects Armani and Cosmo. In addition to their temperament qualities, these puppies are **DNA clear and genetically non-shedding**, with colors expected to intensify as they mature. Their individual personalities give us the opportunity to thoughtfully match each puppy based on a family's lifestyle and needs while preserving the wonderful engagement, affection, and companionship that runs throughout the entire litter.

Armani Blue

POTENTIAL SERVICE + THERAPY CANDIDATE

★ Prep Student: **8-Week S.T.A.R. Puppy Program**

Prep School will begin once adopted.

- **Energy Level:** Mid — Consistent & Balanced

- **Personality:**

Armani Blue is an **affectionate, gentle, personable, and deeply people-focused boy** who actively works to gain and maintain attention from his person. He does need **a little time to take in something unfamiliar before becoming fully comfortable**, but he showed that he is able to adjust once given that opportunity. That adjustment period is an important part of his current temperament and something his family should be willing to support through continued positive socialization and confidence-building.

Once comfortable, Blue is **very engaging and exceptionally tolerant with handling**. He strongly values human connection and naturally wants to be involved with his person. His gentle, respectful nature combined with his desire for interaction gives him a lovely companion-driven temperament.

His energy is a **true mid level through and through**. He will be best matched with a **patient, slower-paced home looking for close companionship**—one that will still engage with him and include him in everyday life, but will also allow him the time and positive experiences he needs to continue building confidence. His evaluation specifically notes that after continued socialization, he should develop into an increasingly calm, personable, and engaging dog.

Blue shows **promising potential for service and therapy development**, particularly because of his exceptional people focus, engagement, gentleness, and handling tolerance. At this stage, **confidence is the primary area that needs further development**, so continued socialization and positive exposure will be important in determining how his working potential develops with maturity.

His **8-Week S.T.A.R. Puppy Program will begin once he is adopted**, allowing his training to be tailored specifically to the family he will ultimately be going home to. Throughout Prep School, we will work on structured training, socialization, confidence-building, and foundational skills while learning his adopting family's lifestyle, routines, goals, and individual needs. This allows our trainers to prepare him **not simply for any home, but specifically for his family and the life he will be stepping into**.

- **Physical Evaluation:**

No health concerns noted.

Armani Green

POTENTIAL SERVICE + THERAPY CANDIDATE

- **Energy Level:** Mid — Calms with Interaction

- **Personality:**

Armani Green is a **personable, engaging, gentle, respectful, and affectionate boy** with a strong natural focus on people. He needed a moment to become comfortable with the new environment during his evaluation, but he **adjusted once given that opportunity**. Continued positive socialization and confidence-building will help him become increasingly comfortable navigating unfamiliar situations.

He is **very people-focused and highly engaging**, naturally seeking connection and interaction with his person. He is also very tolerant with handling and was relaxed during his initial handling evaluation. Together, those qualities create a puppy who genuinely values companionship and responds beautifully to close interaction.

Green has a **mid-level energy that is able to calm**, giving him a nice combination of engagement and settle. His evaluation supports a **patient, engaging home with a somewhat slower pace**, particularly while he continues building confidence through new experiences. Once settled, he presents as a calm, personable, affectionate companion.

He also shows **promising potential for service and therapy development**. His people focus, engagement, handling tolerance, gentle nature, and ability to settle are wonderful foundational qualities. Like Blue, **confidence is currently the primary developmental piece**, so continued positive exposure and socialization will be important as his working qualities continue to mature.

- **Physical Evaluation:**

No health concerns noted.

Armani Orange

POTENTIAL SERVICE + THERAPY CANDIDATE

★ Prep Student: **8-Week S.T.A.R. Puppy Program**

Prep School will begin once adopted.

- **Energy Level:** Mid — Consistent & Engaging

- **Personality:**

Armani Orange is an **affectionate, gentle, personable, and highly people-focused boy** who naturally works to gain and maintain his person's attention. He took only a very brief moment to assess the new

environment during his evaluation before adjusting and engaging, showing a nice ability to move forward once he understands what is happening around him.

He is exceptionally comfortable with handling and **very engaging with people**. His strong desire for human interaction is one of the clearest pieces of his temperament—he wants connection, enjoys attention, and is naturally relationship-driven. His evaluation consistently describes him as gentle, respectful, affectionate, and personable.

Orange has a **true mid-level energy** and will be best suited to an **engaging home looking for close companionship**. His energy remains present rather than naturally dropping into a particularly low-energy presentation, which is important when considering both his home placement and the specific types of working roles that may suit him best.

He shows **great potential for service and therapy development**. His excellent handling tolerance, strong human engagement, affection, gentleness, and people focus provide a wonderful working foundation. His evaluation does specifically note that his **energy may limit which working roles are ultimately the best fit**, so his individual strengths and regulation as he matures should guide the direction of any continued working development.

His **8-Week S.T.A.R. Puppy Program will begin once he is adopted**, allowing his training to be customized around his adopting family. Throughout Prep School, our trainers will continue developing his foundational skills, socialization, engagement, confidence, and regulation while learning his family's lifestyle, routines, and goals. This allows us to prepare Orange **specifically for the people and home he will ultimately be joining**, rather than training him for a generic household.

- **Physical Evaluation:**

No health concerns noted.

 **Meet The Proud Parents!**

Meet The Parents

Armani x Cosmo — Parent Overview

Armani is outgoing, confident, and incredibly sweet. She is a wonderful representation of the Smeraglia Goldendoodle in every way, from her beautiful appearance to her exceptional temperament. Armani is engaging, focused, and people-oriented, bringing together the confidence, connection, and overall balance we strive for in our program.

Breed: F1 Goldendoodle

Weight: 62lbs

Cosmo is just as wonderful a representation of the Smeraglia bloodline. He is outgoing, affectionate, engaging, and delightfully silly, with a personality that makes him incredibly enjoyable to be around. Cosmo also brings excellent physical qualities to the pairing, including the proper genetics to produce non-shedding puppies, a beautiful intense red coloration, and a loose coat for a Poodle.

Breed: Mini Poodle

Weight: 10lbs

Together, Armani and Cosmo are expected to produce puppies that truly carry the mantle of the Smeraglia Standard. These puppies are genetically non-shedding and DNA clear, with beautiful coloration that is expected to intensify as they mature. Temperamentally, we anticipate engaging, sweet, affectionate, and confident puppies with strong people-oriented motivation. With mid-level energy that rises with interaction, this litter should produce excellent service and therapy candidates while also being exceptional companions for families looking for the complete Smeraglia package.
