

Clarice Boys Temperament Assessment

Date of Birth: 8/3/2026

Clarice Litter Temperament Overview:

The Clarice litter is a **sweet, gentle, intelligent, playful, and people-oriented group** with beautifully balanced temperaments. These are happy babies who enjoy people, play, exploring, and having their minds engaged.

One important part of understanding this litter is that **taking a moment to assess something completely new is not the same as being generally timid or lacking confidence**. A few puppies were more thoughtful at the very beginning of their structured temperament evaluation and needed a brief opportunity to understand the unfamiliar setting. Once comfortable—and especially when observed naturally afterward—their playful, confident personalities came through clearly. They were happily running around, interacting, exploring, and enjoying themselves. This fits with the original litter assessment that some may be slower to start while becoming more outgoing as they gain comfort. Pasted text

Across the litter, energy is a very nice **mid level with great play energy**. When it is time to play, they are fun, animated, and ready to participate. When the environment settles, they are not puppies who need to keep the excitement going. Their energy is balanced and responsive to what is happening around them.

They are also **bright, alert puppies who enjoy mental stimulation**. Learning, interactive play, exploring new things, and engaging with their families are all wonderful outlets for them. Their people orientation is another strong theme throughout the litter, with the puppies showing a genuine interest in human connection and interaction.

Overall, Clarice's puppies have a lovely combination of **intelligence, affection, gentleness, playfulness, and connection**. Their individual evaluations help us understand the small differences in how each puppy approaches something new, engages with people, and expresses their personality—but none of those differences make one puppy “better” than another. They simply help us make thoughtful matches between each wonderful puppy and the family whose lifestyle and personality complement them best.

POTENTIAL SERVICE + THERAPY CANDIDATE

- **Energy Level:** Mid — Balanced with Great Play Energy

- **Personality:**

Clarice Green is a **sweet, gentle, intelligent, and people-oriented boy** with an engaging, playful personality. Like several of his littermates, he may initially take a brief moment to observe a completely new situation. Once he understands his surroundings, he becomes confident, curious, happy, and ready to join in.

Green showed **excellent human engagement and very good tolerance with handling**. He naturally leans toward people and enjoys affection and interaction, while also being alert and interested in the world around him. - **Personality:**

Clarice Orange is an **outgoing, sweet, gentle, social, and intelligent boy** with a fun, playful personality. He is also **very alert and bright**, and his personality really shines when he has opportunities to use both his brain and his playful side. His energy is a balanced **mid level that naturally rises with play**.
