

Meet The Parents

Faryn x Reuben — Parent Overview

Faryn has a wonderfully sweet disposition. She can be a little reserved when first meeting someone new, but once she has a chance to get to know you, her personality truly shines. She becomes playful, affectionate, and incredibly eager to please, forming strong connections with her people and genuinely enjoying their interaction and attention.

Breed: F1B Goldendoodle

Weight: 15lbs

Reuben is a stately gentleman with a wonderful balance between engagement and relaxation. He enjoys training and working and is always happy to play, romp, or head out for a nice long walk or jog, but afterward, he is more than ready for some well-earned couch time. Reuben is the kind of Poodle who leans into hugs and somehow always manages to make you feel like you haven't cuddled with him nearly enough that day.

Breed: Mini Poodle

Weight: 16lbs

Together, Faryn and Reuben are expected to produce puppies that are every bit as wonderful as their parents. We anticipate sweet, engaging, personable, and self-assured puppies with a strong desire to connect with their people. Their people-focused nature, eagerness to engage, and balanced dispositions should create excellent potential for service and therapy work. Expect mid-level energy that naturally rises with interaction, creating puppies that are happy to participate when it's time for activity while still enjoying plenty of affection and downtime with their families.
