Mylo is a fun little fireball of a Doodle. He is playful, outgoing, goofy, and bubbly, approaching every interaction and new situation with an impressive amount of gusto for a dog his size. Mylo brings enthusiasm and personality everywhere he goes. There are plenty of words that could be used to describe him, but boring would certainly never be one of them.

Breed: F1B Goldendoodle

Weight: 9.5lbs

Together, Guppy and Mylo are expected to produce puppies that thread the needle beautifully between their parents. Some may naturally lean a little more toward Guppy's gentle, affectionate demeanor, while others may inherit more of Mylo's bubbly enthusiasm. Overall, we anticipate sweet, personable, and affectionate puppies that settle nicely for handling while becoming playful, silly, and downright hysterical when it's time to have fun.
