

Kassandra Girls Temperament Assessment

[Kassandra Girls Video\(p,r,w\)](#)

[Kassandra Girls Video\(pd,rd,wd\)](#)

Date of Birth: 7/31/2026

Kassandra Litter Temperament Overview:

The Kassandra litter is an exceptionally **gentle, affectionate, balanced, personable, and people-centered group**, beautifully reflecting the qualities that have made this pairing so loved. Across their individual evaluations, we consistently see puppies who are **respectful, tolerant, engaging, and naturally responsive to human connection**, with several showing especially exciting foundations for continued working development.

Confidence presents individually throughout the litter, and that distinction is important for thoughtful matching. Some puppies are naturally comfortable and confident in something new, while others **need additional time to observe, process, and settle before their personalities fully emerge**. What is particularly meaningful is that even the puppies who remained unsure during testing continued to demonstrate **gentleness, tolerance, and respectful behavior** rather than losing those core temperament qualities.

Energy throughout the litter centers around a **mid level**. Some remain consistently mid, while others either calm through handling or become somewhat more animated through interaction. This gives the litter a beautiful balance of companionship and playfulness while preserving the affectionate, people-oriented nature that is so characteristic of Kassandra and Archie.

There are also **exceptional foundational qualities for service and therapy development within this litter**. Several puppies individually demonstrated great early working potential through their combination of **human engagement, handling tolerance, balanced confidence, gentleness, and people orientation**, while the puppies who currently need more confidence should be given the opportunity to develop that piece before their future working direction is determined. This allows us to appreciate the strength of the litter as a whole without overlooking the individual temperament of each puppy.

Overall, this is a truly special **companion-driven, affectionate, gentle, and beautifully balanced litter**. Their individual differences allow us to match each puppy thoughtfully to the right family, while the exceptional loving temperament running throughout the group is unmistakable. Their colors are also expected to **intensify as they mature**, making this an especially beautiful litter both inside and out.

★ Prep Student: **4-Week Starter Puppy Program**

Prep School will begin once adopted.

- **Energy Level:** Mid — May Increase with Confidence

- **Personality:**

Kassandra Pink is a **gentle, respectful, and balanced girl** with a softer approach to unfamiliar situations. During her evaluation, she **needed time to take in the new environment and did not fully settle within the testing period**. This is an important part of her individual temperament: she will benefit from a family that allows her to observe, process, and become comfortable rather than expecting her full personality to appear immediately in something new.

Even while feeling unsure, Pink remained **tolerant, gentle, and respectful**. She carried some tension with handling but continued to tolerate it appropriately. Because she did not fully settle during the evaluation, her independence and human-engagement qualities were more difficult to assess accurately that day.

Her current energy presents at a **mid level**, although it may become somewhat more expressive as her confidence grows. Her best match will be a family willing to give her **an adjustment period, patient socialization, and positive confidence-building experiences**. As that confidence develops, we expect more of her personality to begin shining through.

Pink has some lovely foundational qualities, particularly her **gentleness, respectfulness, and tolerance**, but her individual evaluation showed that **confidence development needs to come first before her future service or therapy potential can be clearly determined**. That does not close the door on future working development—it simply means that at this young age, confidence is the piece that needs to develop before we can accurately assess that direction.

Her **4-Week Starter Puppy Program will begin once she is adopted**, allowing our trainers to tailor her experience specifically to her future family. Her program will be especially valuable for **positive socialization, confidence-building, foundational training, and helping her become increasingly comfortable navigating new experiences**, while also preparing her around her adopting family's lifestyle, routines, and needs.

- **Physical Evaluation:**

No health concerns noted.

Kassandra **Red**

- **Energy Level:** Mid — Calms with Handling

- **Personality:**

Kassandra Red is a **gentle, respectful, and balanced girl** who takes a more observant approach when something is unfamiliar. She was a little unsure initially and **needed more time to settle than the evaluation period allowed**, so this is a puppy whose family should be prepared to give her an adjustment period in new situations rather than expecting immediate confidence.

Even while she was uncertain, Red remained **tolerant, gentle, and respectful**. She could be tense with handling, but she continued to tolerate it appropriately. Because she had not fully settled, her independence and human engagement were difficult to assess completely during this particular evaluation.

She currently presents with **mid-level energy that is able to calm**, although that energy may become somewhat more expressive as her confidence develops. Her best match is a home that will allow her **time to adjust and build confidence through patient, positive experiences**. As she becomes secure in her environment, we expect more of her individual personality to emerge.

Red comes from a litter with exceptional companion and working qualities, and she already shows valuable foundational traits in her gentleness and tolerance. However, her individual evaluation indicates that **confidence-building is the priority before her future service or therapy potential can be accurately determined**.

- **Physical Evaluation:**

No health concerns noted.

Kassandra White

POTENTIAL SERVICE + THERAPY CANDIDATE

★ Prep Student: **8-Week S.T.A.R. Puppy Program**

Prep School will begin once adopted.

- **Energy Level:** Mid — Excites with Interaction

- **Personality:**

Kassandra White is a **beautifully balanced, gentle, respectful, personable, playful, and happy girl** with wonderful engagement. She showed comfortable confidence without being pushy and naturally leans toward her people while maintaining a healthy amount of independence. She was also relaxed from the beginning of her handling evaluation.

She is **very tolerant with handling and shows great human engagement**, which is an especially lovely combination. White genuinely enjoys connecting with people, and interaction naturally brings out more of her playful, happy personality.

Her baseline energy is **mid level and can rise toward mid-moderate when she becomes excited through interaction**. This is an engagement-driven increase rather than a consistently higher-energy presentation. Her evaluation supports her adapting well to **a wide variety of home environments**.

White shows **great potential for both service and therapy work**. Her balanced confidence, people orientation, strong engagement, very good handling tolerance, gentleness, and responsiveness to interaction give her a genuinely exciting foundation for continued development.

Her **8-Week S.T.A.R. Puppy Program will begin once she is adopted**, allowing her training to be tailored specifically to the family she will ultimately be going home to. Throughout Prep School, we will continue developing her through **structured training, socialization, confidence-building, foundational skills, and appropriate regulation**, while learning her family's lifestyle, routines, goals, and individual needs. This allows our trainers to prepare her **not just for any home, but specifically for her family and the life she will be stepping into**.

- **Physical Evaluation:**

No health concerns noted.

Kassandra **Pink Dot**

POTENTIAL SERVICE + THERAPY CANDIDATE

- **Energy Level:** Mid — Consistent & Balanced

- **Personality:**

Kassandra Pink Dot is an exceptionally **well-balanced, gentle, respectful, personable, playful, happy, and highly engaging girl**. She showed comfortable confidence without being pushy and naturally leans toward human connection while maintaining a healthy amount of independence.

She was **relaxed during her initial handling evaluation, very tolerant with handling, and showed great engagement with people.** That combination of confidence, comfort with close interaction, gentleness, and genuine interest in people gives her a beautiful companion temperament.

Her energy is a **true mid level through and through**, providing a wonderful balance between playfulness, interaction, and everyday manageability. Her evaluation supports her adapting beautifully to **a wide variety of home environments.**

Pink Dot shows **great potential for both service and therapy work.** Her confidence, strong human engagement, handling tolerance, people orientation, and gentle, balanced nature provide an excellent early foundation for continued working development as she matures.

- **Physical Evaluation:**

No health concerns noted.

Kassandra Red Dot

POTENTIAL SERVICE + THERAPY CANDIDATE

★ Prep Student: **8-Week S.T.A.R. Puppy Program**
Prep School will begin once adopted.

• **Energy Level:** Mid — Excites with Interaction

- **Personality:**

Kassandra Red Dot is an exceptionally **well-balanced, gentle, respectful, personable, playful, happy, and highly engaging girl**. She showed comfortable confidence without being pushy and naturally leans toward her people while still maintaining a healthy degree of independence.

She is **very tolerant with handling and shows great human engagement**, creating a wonderful combination of connection, composure, and responsiveness. She enjoys being involved with people, and interaction naturally brings out more of her playful and happy personality.

Her baseline energy is **mid level, with excitement and interaction capable of bringing her toward mid-moderate**. Her enthusiasm becomes more expressive when she is actively engaged, while her overall evaluation still supports her adapting well to **a wide variety of home environments**.

Red Dot shows **great potential for both service and therapy work**. Her balanced confidence, people orientation, great engagement, handling tolerance, and gentle disposition create an excellent early foundation for continued working development.

Her **8-Week S.T.A.R. Puppy Program will begin once she is adopted**, allowing her training to be tailored specifically to the family she will ultimately be going home to. Throughout Prep School, we will continue building upon her strengths through **structured training, socialization, confidence-building, foundational skills, and appropriate regulation**, while also getting to know her adopting family's lifestyle, routines, goals, and individual needs. This allows our trainers to prepare her **not just for any home, but specifically for her family and the life she will be stepping into**. Whether she ultimately continues toward working development or simply becomes a wonderful family companion, she will leave Prep School with an incredible head start and a foundation intentionally built around her future with her family.

- **Physical Evaluation:**

Kassandra White Dot

★ Prep Student: 4-Week Starter Puppy Program

Prep School will begin once adopted.

- **Energy Level:** Mid — Calms with Handling

- **Personality:**

Kassandra White Dot is a **gentle, respectful, and balanced girl** with a softer approach to unfamiliar situations. She was a little unsure initially and **needed more time to settle than the evaluation period allowed**. Her

family should therefore expect that unfamiliar environments and experiences may require an adjustment period before her full personality comes forward.

Even while she was uncertain, White Dot remained **tolerant, gentle, and respectful**. She carried some tension during handling but continued to tolerate it appropriately. Because she had not fully settled, her independence and human engagement were difficult to assess completely during the evaluation.

She currently presents with **mid-level energy that is able to calm**, although that energy may become somewhat more expressive as her confidence develops. Her best match will be a family willing to provide **time to adjust, patient socialization, and positive confidence-building experiences** rather than rushing her through unfamiliar situations. Her evaluator specifically expects more of her personality to begin shining through alongside that confidence.

White Dot has gentle and tolerant foundational qualities, but her individual evaluation showed that **confidence development needs to come first before her future service or therapy potential can be clearly determined**. Her 4-Week Starter Puppy Program gives us an excellent opportunity to intentionally work on that developmental area.

Her **4-Week Starter Puppy Program will begin once she is adopted**, allowing her training to be tailored specifically to her adopting family. Throughout Prep School, we will focus on **structured positive socialization, confidence-building, foundational training, and helping her become increasingly comfortable navigating new experiences**, while also learning her family's lifestyle, routines, goals, and individual needs. This allows our trainers to prepare her **not simply for any home, but specifically for her family and the life she will be stepping into**.

- **Physical Evaluation:**

No health concerns noted

🧬 **Meet The Proud Parents!**

Meet The Parents

Kassandra x Archie — Parent Overview

Kassandra is the definition of a gentle giant. She is sweet, gentle, and wonderfully outgoing, carrying a calm and affectionate presence. While she will happily romp and play if invited, Kassandra would almost always prefer to cuddle and is happiest when she's doing exactly that. Her thunderous tail wags against the nursery floor are a familiar and joyful welcome to anyone who steps into her room.

Breed: F1B Goldendoodle

Weight: 65lbs

Archie is a chill, affectionate, and engaging boy who shares that same loving disposition. He enjoys playtime like any dog, but he leans much more toward hugs and quiet connection than running laps. Archie is simply an all-around sweet guy with an easygoing, people-oriented nature.

Breed: F1B Schnoodle

Weight: 58lbs

Together, Kassandra and Archie are expected to produce puppies that follow beautifully in their parents' footsteps—loving, affectionate, and highly motivated by interaction. We anticipate mid-level energy puppies who prefer connection over chaos and who will transition easily into a wide variety of home environments, bringing warmth and companionship wherever they go.
