Laken Litter Temperament Overview:

Laken and Rembrandt have produced a litter with a wonderfully **gentle, sweet, focused, respectful, and even-keeled foundation**. Across the litter, there is a strong theme of puppies who tend to take life in stride once comfortable, with the soft disposition and balanced nature expected from their parents.

Confidence varies between individuals. Some puppies are naturally more immediately confident and social, while several prefer to **take a moment to understand a new environment before fully settling in**. Importantly, those puppies continued to show sweetness and tolerance while adjusting. Their confidence should continue developing through maturity, thoughtful socialization, and positive experiences.

Energy is remarkably consistent across the litter at a **mid level**, although some puppies may become a little more expressive as their confidence grows. This gives the litter an overall manageable energy profile, with plenty of room for play, engagement, and everyday family life without an overly intense presentation.

There are many **therapy-style foundational qualities throughout this litter**, especially gentleness, focus, tolerance, affection, and balanced energy. Individual human engagement and confidence varied during testing, so rather than broadly designating the litter as working candidates, these are qualities worth continuing to watch as each puppy matures.

Overall, these are **sweet, balanced companion puppies**, with several expected to fit comfortably into a wide range of homes and others better matched to patient, slower-paced families who will allow confidence to develop naturally. Their DNA-clear parentage and expected mix of fading and non-fading coats round out a litter with both lovely temperament and variety.

Laken x Rembrandt — Parent Overview

Laken is a sweet, charming, and engaging girl with a wonderfully balanced approach to life. She rarely swings too high or too low, instead maintaining an even-keeled temperament that makes her incredibly easy to enjoy. Laken is especially motivated by her people and carries a mid to moderate energy level, bringing a steady combination of affection, engagement, and adaptability.

Breed: F1 Goldendoodle

Weight: 63lbs

Rembrandt is a fan-favorite father in our program thanks to his outgoing, friendly, and loving nature. He is more low-key than many male Poodles, while still maintaining plenty of playful energy and enthusiasm for life. Rembrandt transitions beautifully from activity to handling, settling calmly and comfortably when it is time to slow down.

Breed: Standard Poodle

Weight: 58lbs

Together, Laken and Rembrandt are expected to produce puppies with that same even and balanced approach to life. We anticipate sweet, friendly, engaging, and playful puppies that take new experiences in stride. Their motivations should be nicely balanced between interaction, play, and food, creating versatile and responsive companions. Energy levels are expected to sit comfortably at mid-level, rising slightly with interaction before settling back down, making this litter a wonderful fit for a wide variety of home environments.
