[Fendi Girls Play Video\(PD,RD\)](#)

Date of Birth: 8/23/2026

Fendi Litter Temperament Overview:

Fendi and Archer produced exactly the kind of litter we hoped to see from this pairing. Fendi is outgoing, confident, sweet, focused, and highly engaged—a beautiful representation of the classic Smeraglia Goldendoodle in both temperament and appearance. Archer brings many of those same qualities with an especially balanced, easygoing side. He is outgoing and playful while also being affectionate, interactive, and a bit of a snuggler.

Their puppies are a **beautifully balanced, gentle, affectionate, confident, and personable group**. Across the litter, they showed a natural people preference, great engagement, and excellent tolerance with handling. They are very easygoing puppies overall with a true **mid-level energy**—playful and interactive when there is something to engage with, while still having a relaxed, comfortable side.

This litter also showed **good early therapy potential across the board**. They are intelligent, people-oriented babies who enjoy connection and engagement, while their naturally easygoing demeanor lends itself especially well to companionship and therapy-type qualities. They are not puppies who need constant activity; they have a lovely ability to participate when something is happening and relax when life is quieter.

A few of the puppies appreciate a brief moment to take in a completely new situation before fully settling in, while others step into new environments more immediately. Once comfortable, the litter is consistently **gentle, affectionate, confident, personable, and engaging**. Those subtle differences simply help us make the best individual family match.

These puppies are **DNA clear and genetic non-sheds**, with fading expected as their coats mature.

Fendi Pink

POTENTIAL THERAPY / ESA CANDIDATE

- **Energy Level:** Mid — Consistent & Balanced

- **Personality:** Fendi Pink is a **gentle, affectionate, confident, and personable girl** with a naturally relaxed, easygoing presence. She enjoys human connection and showed great engagement along with excellent tolerance during handling.

Pink has a nice, steady confidence and is comfortable engaging with the world around her without needing to push herself to the front of every interaction. She enjoys affection, attention, and being involved with her people while maintaining a beautifully balanced demeanor.

Her energy is a textbook **mid level**. Pink enjoys play and interaction but also has a naturally relaxed side,

making her comfortable with both engaging activities and quieter everyday companionship.

Pink showed **good early potential for therapy or ESA development**. Her affection, confidence, human engagement, people orientation, and excellent handling tolerance provide a promising foundation for continued development.

Pink is an adaptable girl who should do well in a **wide variety of homes**. She will be a lovely fit for a family wanting a sweet, connected, affectionate puppy with an easygoing personality and nicely balanced energy.

- **Physical Evaluation:** Pink has a small umbilical hernia. This is very common at this age and is not expected to affect her daily comfort or quality of life. If still present as she matures, it can typically be corrected at the time of spay.

Fendi Red

POTENTIAL THERAPY / ESA CANDIDATE

- **Energy Level:** Mid — Consistent & Balanced

- **Personality:** Fendi Red is a **gentle, affectionate, confident, and personable girl** with a sweet, easygoing personality. She naturally enjoys people and showed great engagement along with excellent tolerance during handling.

Red may take just a brief moment to observe something completely unfamiliar before settling into the situation. Once comfortable, she is confident, connected, and happy to engage. Her thoughtful start does not take away from her confidence—it simply reflects the way she likes to understand a new environment before fully relaxing into it.

Her energy is a very balanced **mid level**. Red enjoys interaction and play while also being naturally comfortable during quieter moments. She has a lovely ability to participate when something is happening and settle when the environment is relaxed.

Red showed **good early potential for therapy or ESA development**. Her affectionate temperament, people orientation, strong human engagement, excellent handling tolerance, and balanced demeanor give her a promising foundation for continued development.

Red will do well in many homes, particularly one that allows her a moment to become familiar with something completely new. She is a **sweet, loving, well-balanced girl** who enjoys both connection and comfortable everyday companionship.

- **Physical Evaluation:** No health concerns noted.

Fendi White

POTENTIAL THERAPY / ESA CANDIDATE

- **Energy Level:** Mid — Consistent & Balanced

- **Personality:** Fendi White is a **gentle, affectionate, confident, and personable girl** with a wonderfully balanced personality. She enjoys people, connects easily, and showed great human engagement along with excellent tolerance during handling.

White has a comfortable, steady confidence without being pushy. She enjoys interaction and affection but does not need constant attention to remain content. There is a really nice ease to the way she engages with people and her surroundings.

Her energy is a true **mid level**. White is playful and interactive when the opportunity arises while still having a naturally relaxed, easygoing side. She can enjoy activity and then comfortably transition into quieter companionship.

White showed **good early potential for therapy or ESA development**. Her confidence, affectionate nature, strong human engagement, people orientation, and excellent handling tolerance give her a promising foundation for continued development.

White is an adaptable girl who should do well in a **wide variety of homes**. She will be a wonderful choice for someone looking for a sweet, connected, engaging companion with a calm, balanced approach to everyday life.

- **Physical Evaluation:** No health concerns noted.

Fendi **Pink Dot**

POTENTIAL THERAPY / ESA CANDIDATE

- **Energy Level:** Mid — Consistent & Balanced
- **Personality:** Fendi Pink Dot is a **gentle, affectionate, confident, and personable girl** with a relaxed, engaging personality. She enjoys human connection and showed great engagement along with excellent tolerance during handling.

Pink Dot may appreciate a brief moment to take in a completely unfamiliar situation before fully settling into it. Once she has had that opportunity, she is comfortable, confident, and happy to interact. She naturally leans toward people and enjoys being connected without needing every moment to revolve around activity.

Her energy is a textbook **mid level**. Pink Dot can enjoy play and interaction while also being very comfortable relaxing and sharing quieter time with her family. She has an easygoing balance that makes both sides feel natural.

Pink Dot showed **good early potential for therapy or ESA development**. Her affectionate nature, strong human engagement, people orientation, handling tolerance, and balanced temperament give her a promising foundation for continued development.

Pink Dot will do well in many homes, particularly with a family that allows her a moment to become familiar with completely new situations. She is a **sweet, connected, easygoing girl** with a lovely balance of affection and engagement.

- **Physical Evaluation:** No health concerns noted.

Fendi Red Dot

POTENTIAL THERAPY / ESA CANDIDATE

- **Energy Level:** Mid — Consistent & Balanced

• **Personality:** Fendi Red Dot is a **gentle, affectionate, confident, and personable girl** with a sweet, relaxed nature. She enjoys being connected to people and showed great engagement along with excellent tolerance during handling.

Red Dot may take a brief moment to understand a completely unfamiliar environment before fully settling in. Once comfortable, she is confident, engaging, and affectionate. She enjoys interaction while maintaining the easygoing temperament that is such a consistent theme throughout this litter.

Her energy is a beautifully balanced **mid level**. Red Dot enjoys play and participating with her people but is also naturally comfortable relaxing when things are quiet. She does not need constant stimulation or activity to be content.

Red Dot showed **good early potential for therapy or ESA development**. Her affection, human engagement, people orientation, excellent handling tolerance, and balanced nature give her a promising foundation for continued development.

Red Dot will do well in many homes, particularly one that gives her a moment to become familiar with something completely new. She is a **sweet, affectionate, well-balanced girl** who offers a lovely combination of connection, engagement, and everyday settle.

• **Physical Evaluation:** No health concerns noted.

 **Meet The Proud Parents!**

Meet The Parents

Fendi x Archer — Parent Overview

Fendi is outgoing, confident, and incredibly sweet. She is a wonderful example of a Smeraglia Goldendoodle in every way, from her beautiful appearance to her exceptional personality. Fendi is engaged, focused, and naturally connected to her people, bringing together so many of the qualities we strive for in our dogs.

Breed: F1 Goldendoodle

Weight: 63lbs

Archer shares many of those same qualities with a slightly calmer, more balanced approach. He is outgoing and playful while also being an affectionate snuggler who genuinely loves interaction. Archer is simply a big, happy boy who loves life and is content to enjoy whatever the day brings alongside his people.

Breed: Standard Poodle

Weight: 63lbs

Together, Fendi and Archer are expected to produce puppies that are every bit as wonderful a representation of the Smeraglia standard as their parents. We anticipate beautiful, blocky puppies with sweet, affectionate, engaging, outgoing, and confident personalities. Their strong people focus and balanced temperaments should create great potential for service work. Energy levels are expected to remain around mid-level, with individual puppies naturally adjusting to interaction—some becoming more playful and energized while others settle and soften with attention.
