Hadid Litter Temperament Overview:

Hadid and Pistachio bring together two beautifully complementary personalities. Hadid is **bubbly, outgoing, happy, confident, and incredibly personable**. She works hard for attention and connection, but what is especially nice about her temperament is how dramatically she settles once she has that interaction. Pistachio brings a softer side to the pairing—he is **reserved, gentle, respectful, and affectionate**, engaging more gradually and choosing cuddles and quiet connection whenever given the opportunity.

Their puppies are a wonderful blend of both parents. Overall, this is a **very personable, engaging, confident, social, and eager-to-please litter**. They carry Hadid's outgoing, bubbly enthusiasm and strong desire for interaction while also showing the ability to calm and settle for handling.

Energy falls in the **mid-to-moderate to moderate range**, with both puppies becoming more animated through interaction. They are strongly people-focused and highly motivated by connection, so they will do best in **engaging homes** that want their dog actively involved in everyday life and will continue giving their confidence and enthusiasm positive, productive outlets.

Most notably, this litter showed **incredible early working potential**. Both puppies demonstrated exceptional human focus, confidence, engagement, eagerness to please, and strong motivation for interaction, with **Pawtism-type service work specifically highlighted during their individual evaluations**. These are exciting early foundations for continued **Service + Alert development** as they mature.
