Julie x Gavin — Parent Overview

Julie is a wonderfully loving, affectionate, and engaging girl with a heart that revolves around her people. She can be a little assertive in her pursuit of attention, but once she has it, she becomes the calmest and gentlest sweetheart. Julie has mid to moderate energy levels that settle beautifully for handling, making her a wonderful balance of enthusiasm, affection, and gentle companionship. Above all, she simply wants to be close to her people and will happily make sure they know it.

Together, Julie and Gavin are expected to produce puppies that are every bit as charming and endearing as their parents. We anticipate sweet, affectionate, playful, and loving puppies that will go to great lengths to earn attention and interaction from their people. With Julie's gentle, people-focused nature and Gavin's goofy, playful personality, these puppies should have an irresistible combination of sweetness and humor. We expect a range of energy levels across the litter, with each puppy bringing its own unique balance of playfulness and affection. Overall, this litter should be especially well suited for engaging homes looking for a personable, interactive, and deeply connected companion.
