

Meet The Parents

Liana x Hamilton — Parent Overview

Liana:
Weight: 9.5lbs
Breed: Poodle

Hamilton:
Weight: 12lbs
Breed: Schnauzer

This is a repeat breeding, allowing us to rely on established temperament notes from the previous Liana litter. That group was overall very confident and self-assured, showing no stress in new situations—whether around unfamiliar people or in environments typically considered challenging. They approached new sights and sounds, including potentially startling ones, with curiosity and an investigative mindset.

The puppies demonstrated good memory, focus, and age-appropriate problem-solving skills. Motivation for interaction, food, and toys was very good and nicely balanced across the litter. Socially, they were appropriate and well-mannered with one another, with cats and other dogs, and with people. While they could be vocal during play or appropriate situations and did use their mouths to initiate play, bite inhibition was very good. No red flags or possessive behaviors were observed, and all puppies were comfortable and tolerant with handling and restraint.

Together, this pairing consistently produces confident, socially appropriate, and personality-filled puppies. Fairly consistent as a group, they leave the impression of big personalities packed into tiny, happy packages—adaptable, engaging, and well-suited for a wide variety of home environments.
