

Meet The Parents

Mardi x Wasabi — Parent Overview

Mardi is a sweet, goofy, and affectionate girl who absolutely loves attention and is never shy about asking for it. She isn't particularly concerned with how that attention comes either. Whether she's playing, cuddling, romping around, getting a bath, or joining in on something entirely different, Mardi is happiest when she gets to be included. She is a fun, people-oriented girl with plenty of personality and a genuine love for interaction.

Breed: F1B Goldendoodle

Weight: 32lbs

Wasabi is not all that different. He is affectionate, fun, incredibly social, and one of those happy-go-lucky dogs who seems to believe every living creature is his friend. Even if someone hasn't quite decided they're friends yet, Wasabi certainly has. He approaches life with an open, joyful attitude and simply loves people, animals, and whatever adventure comes his way.

Breed: F1 Schnoodle

Weight: 15.5lbs

Together, Mardi and Wasabi are expected to produce playful, outgoing, self-assured, and beautiful puppies with a strong desire to engage with the world around them. Mardi has historically produced some puppies that can be more cautious or fearful in new situations, so Wasabi was intentionally selected for his exceptionally social, confident, and happy-go-lucky temperament. We hope his natural confidence will complement Mardi beautifully and produce puppies with her affectionate, playful personality alongside a more self-assured approach to new people, environments, and experiences.
