Snow Boys Temperament Assessment

Snow Boys Play Video

Date of Birth: 9/9/2026

Snow Litter Temperament Overview:

Snow and Diesel bring together two very different but beautifully complementary temperaments. Snow is **gentle, respectful, sweet, cuddly, easygoing, and incredibly tolerant**—the kind of girl who is friends with nearly everyone she meets. Diesel brings the other side of the equation: he is **outgoing, confident, highly intelligent, energetic, and adventurous**, with incredible focus and a willingness to take on just about anything.

Their puppies appear to have **threaded those qualities together really nicely**. Overall, this is a very well-balanced litter of playful, curious, happy, engaging puppies with **exceptional focus for their age**—a quality that is especially characteristic of Diesel puppies. They enjoy human connection and are naturally people-focused, while also showing an appropriate ability to be content doing their own thing when needed.

One important theme within the evaluated puppies is that **many appreciate a little time to process and adjust when something is brand new**. They may initially appear somewhat unsure, but that first impression should not be mistaken for their entire temperament. Once given the opportunity to settle into an environment, we expect to see increasingly confident, outgoing, engaging, and animated puppies. They are also highly tolerant with handling, even when carrying some initial tension, which is an important and positive distinction.

Energy is consistently **mid level across the evaluated litter**, giving these puppies a nice balance between playfulness, engagement, and the ability to settle. They also show **good early Therapy / ESA potential**, with continued confidence-building being an important part of developing that potential. Overall, this is a sweet, intelligent, focused, people-oriented group with a wonderful combination of Snow's gentleness and Diesel's curiosity, engagement, and drive.

Snow Blue

🎅🐾 Santa's Little Prep Student: **6-Week Doodle Prep School**
Prep School Dates: Nov 5th - Dec 17th 2026 (6wk)

POTENTIAL THERAPY / ESA CANDIDATE

• **Energy Level:** Mid — Consistent & Balanced

• **Personality:**
Snow Blue is a **very well-balanced, playful, curious, engaging, sweet, and tolerant boy** with particularly impressive focus for his age. He enjoys connecting and interacting with people, while also showing the ability to be content doing his own thing when needed.

Blue appreciates **a moment to adjust when something is brand new**. He can initially present as a little unsure, but once he has had the opportunity to settle into his environment, he is expected to develop into a more confident, outgoing,

engaging, and energetic puppy. His best match will be a family that allows him that initial adjustment rather than overwhelming him before he has had a chance to get comfortable.

He is naturally people-focused with **good human engagement**. During handling, Blue remained very tolerant despite carrying some tension. He may not initially be completely relaxed, but he continues to accept handling well. His energy is a **textbook mid level**, giving him a balanced foundation for everyday life, play, and interaction.

Blue showed **good early Therapy / ESA potential**, with his evaluator specifically noting that this potential should become even stronger as his confidence develops. His people focus, impressive concentration, tolerance, curiosity, and engagement provide a promising foundation for continued development.

His **6-Week Doodle Prep School** will be especially valuable for continuing to build confidence while developing his training, socialization, manners, handling, and everyday puppy skills. This additional foundation should give him a wonderful head start as he becomes increasingly comfortable and confident in the world around him.

• **Physical Evaluation:**
Blue has a **small umbilical hernia**, which is common in puppies and is not considered a health concern. It should not cause him pain or affect his everyday life and can be corrected at the time of his routine spay/neuter procedure. **He has been fully cleared by our veterinarian.**

Snow Green

POTENTIAL THERAPY / ESA CANDIDATE

• **Energy Level:** Mid — Consistent & Balanced

• **Personality:**
Snow Green is a **very well-balanced, playful, curious, engaging, sweet, and tolerant boy** with amazing focus for his age. He was relaxed during his initial handling evaluation and shows a nice ability to enjoy human interaction while also being content doing his own thing when needed.

Green does appreciate **a moment to adjust to something brand new**. Once he has had that opportunity to settle into an environment, he is expected to become increasingly confident, outgoing, engaging, and energetic. Giving him that little bit of processing time will allow his full personality to emerge naturally.

He is people-focused and showed **good human engagement**. Green is also highly tolerant with handling, although he carried some tension during that portion of his evaluation. Even with that tension, he remained receptive and tolerant. His overall energy is a **textbook mid level**, creating a nice balance between interaction, play, and everyday companionship.

Green showed **good early Therapy / ESA potential**, with continued confidence development expected to strengthen that potential. His focus, people orientation, curiosity, tolerance, and engagement provide a promising early foundation.

He will do best with a family that understands his need for **a little adjustment time in new environments** and allows him to become comfortable without overwhelming him. Once settled, his sweeter, more confident, outgoing, and engaging qualities should continue to blossom.

• **Physical Evaluation:**
No health concerns noted.

Snow Orange

🎅🐾 Santa's Little Prep Student: **6-Week Doodle Prep School**
Prep School Dates: Nov 5th - Dec 17th 2026 (6wk)

POTENTIAL THERAPY / ESA CANDIDATE

• **Energy Level:** Mid — Consistent & Balanced

• **Personality:**
Snow Orange is a **very well-balanced, playful, curious, engaging, sweet, and tolerant boy** with amazing focus for his age. He is happy to interact and connect while also showing the ability to be content doing his own thing when needed.

Orange showed a **more active initial handling presentation**, while his overall energy evaluation remained a textbook mid level. He appreciates a moment to adjust to something unfamiliar and can initially appear a little unsure. Once he has settled into his environment, he is expected to become increasingly confident, outgoing, engaging, and energetic.

He is naturally people-focused with **good human engagement**. Orange also remained highly tolerant during handling despite carrying some tension. His more active initial presentation does not take away from that tolerance—he continued to accept interaction and handling appropriately.

Orange showed **good early Therapy / ESA potential**, with additional confidence expected to further strengthen that potential. His focus, people orientation, tolerance, curiosity, and ability to engage provide a promising foundation for continued development.

His **6-Week Doodle Prep School** will provide additional opportunities to build confidence while developing training, socialization, manners, handling, and everyday puppy skills. He will benefit from a family that continues that foundation and allows him the appropriate adjustment time when encountering brand-new environments.

• **Physical Evaluation:**
No health concerns noted.

Snow Blue Dot

POTENTIAL THERAPY / ESA CANDIDATE

• **Energy Level:** Mid — Consistent & Balanced

• **Personality:**
Snow Blue Dot is a **very well-balanced, playful, curious, engaging, sweet, and tolerant boy** with amazing focus for his age. He enjoys connecting with people but is also quite content to occupy himself appropriately when needed.

Blue Dot appreciates **a moment to adjust when entering something unfamiliar**. He can be unsure initially, but once he has had time to settle into an environment, he is expected to become increasingly confident, outgoing, engaging, and energetic.

He is naturally people-focused and demonstrated **good human engagement**. Blue Dot remained very tolerant with handling despite carrying some tension, showing that even when he is not completely relaxed, he can remain receptive to being handled. His overall energy is a **textbook mid level**.

Blue Dot showed **good early Therapy / ESA potential**, with his evaluator specifically noting that additional confidence should further strengthen that potential. His impressive focus, people orientation, curiosity, tolerance, and engagement provide a promising foundation for continued development.

His ideal family will understand that he benefits from **a little adjustment time** rather than immediately overwhelming him in a new environment. Once comfortable, his sweet, curious, engaging, and increasingly confident personality should become much more apparent.

• **Physical Evaluation:**
Blue Dot has a **small umbilical hernia**, which is common in puppies and is not considered a health concern. It should not cause him pain or affect his everyday life and can be corrected at the time of his routine spay/neuter procedure. **He has been fully cleared by our veterinarian.**
