Together, Tulip and Jonah are expected to produce puppies that are every bit as lovely as their parents. We anticipate engaging, sweet, affectionate, social, curious, and all-around joyful puppies that combine Tulip's playful enthusiasm with Jonah's gentle, loving nature. Energy levels should remain around mid-level without becoming overly excitable, creating a wonderful balance between playful interaction and calm affection. With their strong people focus, eagerness to please, and naturally engaging dispositions, this litter should have excellent potential for therapy work while making wonderful companions for a wide variety of homes.
